STATUS

[359](#)

Parenchymal, pleural, or extrapulmonary respiratory diseases that decreases lung volume, primarily TLC (Total Lung Capacity) and VC (Vital Capacity), resulting in an increased work of breathing, and inadequate ventilation and/or oxygenation. Example of intrinsic causes: Asbestosis, radiation fibrosis, drug adverse event (e.g., amiodarone, bleomycin and methotrexate), another disease complication (e.g., rheumatoid arthritis), hypersensitivity pneumonitis, ARDS, idiopathic pulmonary fibrosis, sarcoidosis, eosinophilic pneumonia, lymphangioleiomyomatosis. Examples o extrinsic causes: Myasthenia gravis, Guillain barre, kyphosis, chest wall deformities, obesity, diaphragmatic hernia, ascites, pleural thickening.

core

Admission code	Admission date	Last Name	First Name	Date of birth
A-IT999-0001	01/10/2016	Primo	Ricovero	01/01/1950
A-IT999-0002	10/09/2016	prova	VIP1	09/09/1920

Choose export type

×

Export category

☒ One admission per row

☐ Other informations per row

One line for each patient with admission details

One row for each sub-element (eg. procedures, infections details...) in the group you will select

View format

☒ Simple text

☐ Internal codification

Variables names and values are displayed as in Prosafe

Variables names and values are displayed with their internal codification

Variables with multiple values

☒ Grouped

☐ Expanded

Values are gathered in one column.

Variables with multiple values have a column for each value.

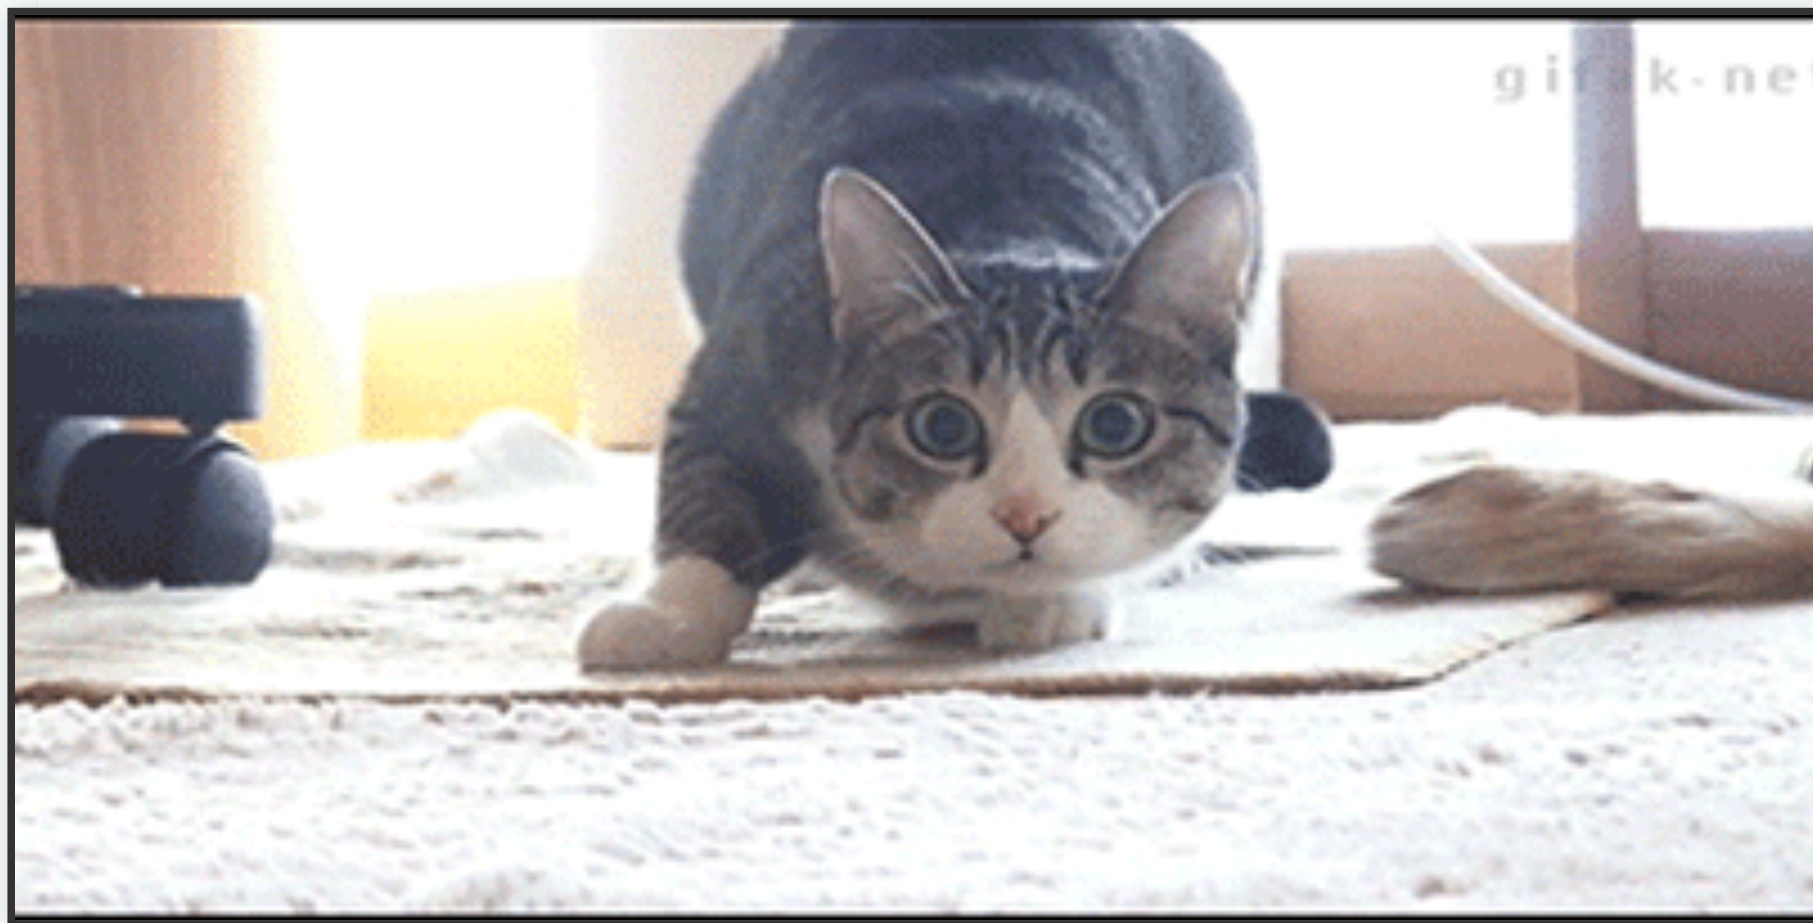

Export

Cancel

- One row per sub-detail (e.g. one row per surgical procedure)
- Internal codifications (e.g. "core.sexCodification.female" instead of the label "Female")
- Explode variables with multiple values allowed (one column per possible value)

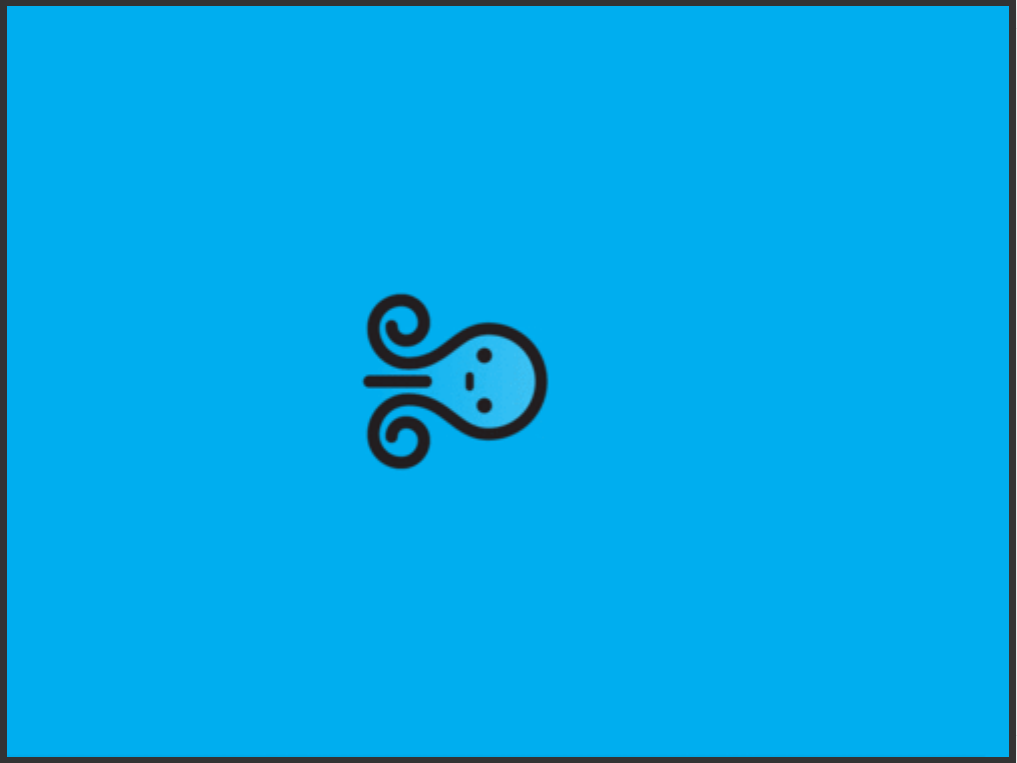

#N

ALT software and CRF, Compact2 CRF,
Cartograph, Creactive CRF, Creactive
Ambulatory follow-up, Trauma CRF, VIP1 CRF,
Start analysis rewriting, M3, unification of
four AngularCrafter versions, M3 again,
server updates, internal query builder,
prosafe bug fixes, "My pc is not connecting"
"You did not put the cable in", data sharing
tests with HBP, M3 (did I already said that?)...
